Damages caused by aquarium water in the event of the aquarium breaking or cracking are compensated too;

4.2.2. penetration of water and steam from the premises adjacent to the insured location.

Rebuild value is the amount of money that would be required to restore the same type of building with the same parameters, physical and operational and utility characteristics in the same place, including all design, installation, construction costs without applying depreciation. The amount of money for the restoration of the building is calculated according to the work technologies and prices used at the time of the event;

6.3.2. Residual value is the value of the asset, which is calculated from the original new Rebuild value of the asset after deducting the depreciation of the property. The amount of depreciation according to the construction of the building is specified in Annex No. 3.

6.4. The Movable property insurance amount can be determined in two ways:

6.4.1. according to the list of prohibited Movable property provided by the Policyholder, indicating the value of each item. The value of insured items is determined as acquisition value or market value, i.e. the minimum costs, required to purchase an item of Movable Property equivalent in terms of its functionality and purpose, are calculated. The insurance coverage is valid only for the listed items, and the Movable Property insurance amount is equal to the sum of the values of the items

specified by the Policyholder.

- 6.4.2.** According to the total area of the building. In this case, all items of Movable Property are insured, taking into account their real value, without specifying each item and its value separately. Insured and non-insured items of Movable Property are described in Section 2 of the Special Conditions. The total insurance amount is determined for all Movable property. Limits of insurance benefits according to groups of items are specified in Annex No. 2.

6.5. Movable property insurance value:

- 6.5.1.** Movable property is insured at the Rebuild value. Rebuild value is the cost of purchasing a new asset of the same type, quality, power or other analogous parameters or repairing it using new parts.

- 6.5.2.** Movable property in outbuildings, warehouses, garages, other outbuildings, in the fenced territory of the household is insured only for the Residual value. Residual value is the cost of purchasing a new property of the same type, quality, power or other similar parameters, after deducting the depreciation rates set out in Annex No. 4, or repairing it using non-new parts, or according to depreciation rates established in Annex No. 4 after assessing the depreciation of new parts. Depreciation is not applied for the first two years from the date of purchase of the item. Unless agreed otherwise.

- 6.6.** If the calculated percentage of depreciation of Non-movable or Movable property (using the depreciation rates set in Annex No. 4) is greater than 70%, it is considered that such property is maximally depreciated and its value is 30% of their Rebuild value.

- 6.7.** The value and insurance amount of stamps, coins, jewelry and articles made of precious metals, precious stones, pearls, works of art, antiques, items of religious worship, cultural-historical valuables, collections, and unique items are determined based on their written assessment by experts or by mutual agreement.

- 6.8.** Non-movable and/or Movable property can be insured with an insurance amount agreed by the parties, which is lower than the value of the insured object (First risk insurance). In such case, the Insurer indemnifies the losses without applying the condition of partial insurance, but the insurance benefit is not higher than the insurance amount specified in the insurance agreement.

- 6.9.** If the insured property is rebuilt, the insurance coverage remains valid for the same insurance amount, except for the insurance of the First Risk.

7. INCREASE AND DECREASE OF INSURANCE RISK

- 7.1.** The following circumstances are considered an increase in insurance:

- 7.1.1.** property transferred for use to third parties on the basis of lease or loan for use - if the Insurer was not informed about this when concluding the insurance agreement and this is not specified in the insurance agreement;
- 7.1.2.** engaging in commercial activities at the location of the insured property - if the Insurer was not informed about this when concluding the insurance agreement and it is not specified in the insurance agreement;
- 7.1.3.** if the Dwelling is uninhabited or neglected for more than 3 months a year.
- 7.1.4.** performance of work during which the temperature rises above 100°C (welding, welding, soldering), as well as storage of flammable, explosive materials in the insured location (except for fuel used for building, water heating or cooking);
- 7.1.5.** non-functioning or deterioration of the property and fire protection measures specified during the conclusion of the insurance agreement;
- 7.1.6.** change in other circumstances specified during the conclusion of the agreement or at the time of conclusion of the insurance agreement that may affect the increase or decrease of the insurance

risk.

- 7.2.** If, after the conclusion of the agreement, the circumstances specified in Paragraphs 7.1.1. - 7.1.6 change at any time, and as a result the insurance risk increases, the Policyholder undertakes to notify the Insurer immediately (but no later than within 3 working days) regarding the change in the terms of the insurance agreement and the insurance premium. If the Policyholder fails to notify of the increased risk, the Insurer acquires the right to reduce the insurance benefit or refuse to pay it. Accordingly, if the circumstances specified in Paragraphs 7.1.1. - 7.1.6. change at any time after the conclusion of the agreement and as a result the insurance risk decreases, the Policyholder may apply to the Insurer for a change in the terms of the insurance agreement and the insurance premium.

8. SECURITY REQUIREMENTS

The policyholder warrants that their behavior will meet the criteria of a prudent and caring person. The Policyholder undertakes to:

- 8.1.** clean chimneys and flues at least once a year;
- 8.2.** clean the accumulated layer of snow from insured objects;

- 8.8.** activate the security and/or fire alarm, if such is installed and the Policyholder has indicated this when concluding the agreement;
- 8.9.** operate the property in compliance with the requirements of manufacturers, sellers or installers, warranty conditions, and General fire safety rules.

9. THE WAY THE AMOUNT OF DAMAGES IS DETERMINED

- 9.1.** Property is considered damaged if it is economically feasible to repair it. If the property cannot be repaired or the cost of its repair exceeds the purchase value of the same property before the insured event occurs, the property is considered destroyed.
- 9.2.** The amount of loss is the monetary expression of the damage incurred, which is necessary to repair or restore the insured property to the condition it was in immediately before the occurrence of the insured event.
- 9.3.** The repair, restoration, or acquisition of the property must in all cases be carried out in the most economical manner at the lowest reasonable cost.
- 9.4.** The loss is determined based on the notification received from the Policyholder about the incident and the loss incurred, the information received during the inspection, the documents received from the Policyholder and/or the relevant authorities, necessary to determine the causes of the damage and the amount of the loss.

- 9.5.** Losses for Entrusted Property are compensated only upon submission of the employer's written confirmation that this property was entrusted for personal or professional use, and the employer files a claim for compensation of losses incurred.
- 9.6.** Without a separate agreement, the costs of cleaning, disinfection, garbage removal costs, intended for cleaning up the place of the event, the insured property or its remains after the insured event are reimbursed as well. The maximum limit of compensable loss is 5% of the insured amount of the insured building or its part that was damaged during the event. This Paragraph does not apply to improvements or upgrades of the insured property.
- 9.7.** Without a separate agreement, the costs of transportation and storage of the remaining property are reimbursed as well when the Policyholder cannot continue to use the home and store things in it. Storage costs are reimbursed until the building is ready for use again, but no longer than 6 months. The maximum limit of indemnified loss is 5% of the insured amount of the insured Movable property.
- 9.8.** Costs that may occur during the operation of the property (e.g. maintenance costs, ongoing repairs) as well as additional costs incurred as a result of certain changes and/or improvements to the insured property after the occurrence of the insured event are not considered a loss.
- 9.9.** When insuring unfinished buildings or buildings under reconstruction, the insurance coverage is valid only for the risks of fire and forces of nature during the period of construction, major repairs, and reconstruction. Insurance coverage against forces of nature is valid only if the main structures and the roof of the building are built and fully equipped, all openings (windows, doors) are properly covered. A deductible of EUR 300 is applied for this period. This limit does not apply when carrying out ongoing Simple repair work in a housing of completed construction, as provided for in Paragraph 5.1.4 of the Special Conditions.
- 9.10.** If the building was insured with the Rebuild Value and is damaged or destroyed due to the insured event, the costs of repairing the building or the costs of rebuilding or purchasing a similar building in the same place are reimbursed. If it is not possible to rebuild the destroyed building in the same place in accordance with the current legislation, then by agreement of the parties, the amount of the loss is equal to the price of construction or acquisition of an equivalent building in a similar place.
- 9.11.** If the building was insured with the Residual Value and is damaged or destroyed due to the insured event, the costs of repairing the building or the costs of rebuilding or purchasing a similar building in the same or similar place are reimbursed, after deduction of depreciation. In case of damage to the building, depreciation is not calculated for the repair and fixing works.
- 9.12.** The insurer is not responsible for slight discrepancies in color or quality between the repaired part and the rest of the property.
- 9.13.** In case of damage to Movable property, the costs for repairing those items are reimbursed. If the Movable property was insured at the Residual Value, the amount of the loss is the cost of repairs after deducting the wear and tear of the parts. Depreciation does not apply to repair and maintenance works.
- 9.14.** In case of destruction or theft of Movable property, the costs for the purchase of a similar item are reimbursed. If the Movable property was insured at residual value, depreciation is deducted. In case of theft, the Policyholder undertakes to provide the Insurer with a list of damaged, missing, or destroyed items, indicating their price, year of purchase, as well as purchase documents, photos or other evidence that they had such an item.
- 9.15.** The amount of the loss includes costs to reduce or avoid losses, costs to determine the causes of the insured event or to carry out action instructions received from the Insurer. The Policyholder undertakes to coordinate any such type of expenses with the Insurer. Otherwise, the Insurer reserves the right not to coverage the expenses incurred by the Policyholder.
- 9.16.** If the Policyholder decides not to restore the damaged or destroyed property after the insured event, the insurance benefit is paid after deducting the costs of design, planning, coordination, social insurance, VAT,

and profit taxes. The VAT part of the loss is paid only after submitting the amount of the loss and documents confirming the actual costs of restoration (repair) (invoices, receipts, etc.).

- 9.17.** Both the Insurer and the Policyholder have the right to hire property appraisers to determine the extent of the loss or the cause of the event. The expenses of such experts shall be paid by the party employing them, unless agreed otherwise.
- 9.18.** If the insured value of the property is greater than the Insured amount by more than 10%, the condition of Partial insurance is applied and the loss is compensated in the same ratio as there is between the Insured value and the Insured amount.
- 9.19.** If the Insured value of the property is lower than the Insured amount (insurance with Increased value), the Insurance benefit is paid in the amount of the loss, no more than it would cost to repair or restore the property to its previous condition.
- 9.20.** Limits of Insurance benefits for groups of items, depending on the selected insurance coverage option, are specified in Annex No. 2. The specified percentages are calculated from the Movable property Insurance amount specified in the insurance certificate.

10. THE INSURANCE BENEFIT PAYOUT PROCEDURE

- 10.1.** The right to an Insurance benefit belongs to the person who has suffered material losses (i.e., the one who has a legitimate insurance interest) or is specified in the agreement as the Beneficiary.
- 10.2.** The Insurance benefit is equal to the amount of the estimated loss, taking into account Partial insurance, increased insurance, double insurance, insurance value, limits on Insurance benefits and other conditions set forth in these rules and the insurance certificate, and after deducting the deductible.
- 10.3.** The Insurance benefit cannot be higher than the Insurance amount for each object and cannot exceed the Insured value of that object.
- 10.4.** If the damage or part of it was compensated to the Policyholder by another person or state institutions, the Insurer pays the Insurance benefit after deducting the part that has already been compensated to the Policyholder.
- 10.5.** The Insurer has the right to choose whether to pay the Insurance benefit to the Policyholder or to organize the purchase, restoration, or repair of the damaged or destroyed property.
- 10.6.** If the Policyholder has recovered the property after the Insurance benefit has been paid, the Policyholder must notify the Insurer and return the Insurance benefit or the recovered property to the Insurer within 15 calendar days.
- 10.7.** If the Insured event occurred due to the fault of Third Parties, the persons responsible for the event are identified, admit their fault and the Insurer acquires the right to demand the return of the insurance payment in the subrogation procedure, the Insurer pays the benefit without applying the deductible specified in the insurance certificate (policy).

11. CASES IN WHICH THE INSURANCE BENEFIT IS NOT PAID OR IS REDUCED

- 11.4.** If the Policyholder does not comply with the requirements provided for in Section 7 of the General Part of these Terms and Conditions or the violations specified in Paragraph 11.2 of the Special Conditions have been committed, the Insurer acquires the right to refuse to pay the Insurance benefit or to reduce it, taking into account the fault, the extent of the violations of the terms of the insurance agreement and its causal connection with the insured event or amount of damage.

- 12.5.** If the Insurer does not inform the Policyholder about the proposed changes, the same conditions and premium as in the previous year remain valid for the next year of the insurance.
