# BTA Strategy 2022-2025

# What the

future holds

## The New Consumer

Events of 2020 have had a fundamental impact on consumers' lives. Changes in the 7 basic human needs brought by the pandemic and other events are examined.

## The New Consumer needs

## Health & wellbeing

## Connection

Renewed focus on hygiene · Preventive healthcare · Mental health · Home workouts · Greater use of telehealth Shift to digital interaction · Surge in video chat platforms · Increased social media usage

Concerns about the future  $\cdot$ Worries about family members' health  $\cdot$  Economic constraints  $\cdot$  Changing regulations

Shift to digital entertainment · Gaming becomes a social activity · The growth of the metaverse · New **live** events

The pandemic drives an infodemic · Rise of scientist 'influencers' · Disinformation · Big tech on trial (again)

Rise of e-commerce · Preference for **local** · Increase in food delivery and **one-stop** shopping

# noustry rends

The future will surely deliver plenty of surprises but the following 10 trends might have a big impact on the insurance industry in the year ahead. Spotting them early will enable insurers to align their businesses to the changing needs of their customers and deliver new, potentially lucrative, products and services

Two focus areas To reach poorly served groups and increase loyalty

Profitability

**Private** customers

## Desired future state

We will put our customers at the core of everything we do, in order to become an industry trendsetters, grow faster than the market while maintaining profitability.

## Strategic Drivers 2022-2025

## **Customer centricity**

People

## Efficiency & Speed

## Innovations & Digitalization

## **Sustainability**

# Business results that make us proud

Double the activity of customer acquisition (Growth from 4% to 8%)

# 2025 profit
